

As part of its continued commitment towards environmental education and awareness for all age groups the Park management will be focusing on the coastal and underwater habitats at Golden Bay which forms part of the park. Email Annalise Falzon for more info on walks@majjistral.org

Guided snorkeling

The park is once again teaming up with Sharklab-Malta with the full support of Selkies Dive Centres to organize guided snorkeling trips for participants aged 9+ upon request on weekdays or Saturday mornings. The fees include the rental of equipment where necessary and an activity fee which will help fundraise for projects at Majjistral Park and for marine research and awareness activities conducted by Sharklab-Malta.

Snorkeling Activity duration: 2.5hrs (including coastal talk, briefing on shore)

Age: 9 years and over (must be good swimmers)

Maximum number per session: 12 (two groups can alternate in one longer session)

Fees: Snorkelling for kids/students = Eur 10 (with own equipment: Euro 6)

Snorkelling for adults = Eur 12 (with own equipment: Euro 10)

Educational Talks

The Park will also once again be offering illustrated talks on the natural heritage of the park – these can be organized for interested groups and adapted to all age groups (against a donation).

Il-Majjistral Nature and History Park is Malta's first natural national park established in 2007 and located in Mellieħa. It is managed by the Heritage Parks Federation consisting of 3 Non-profit NGOs: Din l-Art Helwa, Gaia Foundation and Nature Trust (Malta) and a Government appointed management board. The Park extends from Golden Bay to Anchor Bay along the northwest coast of Malta. Guided walks are held regularly in the park for the public, schools and for tourist groups. www.majjistral.org

Sharklab-Malta is a non profit, voluntary organisation registered as an NGO here in Malta. The NGO is dedicated to researching, raising awareness, educating and striving for greater protection of all species of Elasmobranch (Sharks, Skates, Rays and Chimeras) around the Maltese Islands and within the Mediterranean. Through research and activities we aim to educate the public about the critical role that Sharks play within the marine eco-system. www.sharklab-malta.org

Selkies Dive Centres in Sliema & Comino are supporting the snorkelling sessions. www.selkies.eu
