

One of the aims of the park and the visitor's centre is to disseminate information and knowledge on the park, on natural history, and other relevant subjects for the education of the general public. For this aim a small library has been set up.

Below is a list of papers, journals, books and other printed material that can be found at the visitor's centre for use by the general public for study and research. These can be accessed during the opening hours and cannot be taken out of the centre.

This is only the beginning and it is hoped that books and other printed material available will increase in the future. The list will be updated when there are additions. Those who want to make use of the library please contact the park at [alex@majjistrat.org](mailto:alex@majjistrat.org) or [info@majjistrat.org](mailto:info@majjistrat.org).

The park is grateful to all those who contributed for this good cause.
